Closing Date for Applications: 10th November 2021 - 5pm ACST

Applications are invited for the newly introduced Clinical Investigator Award scheme, offered through Cancer Council SA’s Beat Cancer Project.

The Beat Cancer Project is funded by Cancer Council SA and the SA Government (through SA Health) and administered by the South Australian Health and Medical Research Institute (SAHMRI). Further details are available on the Beat Cancer Project website.

Aim of Clinical Investigator Award
The aim of the Clinical Investigator Award is to stimulate and encourage the clinical cancer research workforce capacity in South Australia. Seed funding will be awarded to early/mid-career clinician researchers who are looking to establish research programs in South Australia that align with the Beat Cancer Project objectives of:

- Scientific excellence
- Health relevance
- Research collaboration
- Translation of research results
- Mentoring and career development of early-career researchers
- Fostering the acquisition of NHMRC and other research funding.

Applications are invited from researchers from multiple clinical disciplines, including nursing, allied and public health professionals, with particular consideration given to applicants specializing in Aboriginal health equity research and Indigenous researchers.

Funding Available
Four (4) Beat Cancer Project Clinical Investigator Awards will be available in this round. The funding scheme aims to provide financial support through a once only grant of $80,000. The appointment will be for a one-year period and will not be renewable.

Eligibility
The intent of the Clinical Investigator Award scheme is to provide support for early career clinical researchers to establish their clinical research programs.

To be eligible to apply for the Clinical Investigator Award, applicants need to be a medical graduate or a graduate of another clinical discipline with a definitive clinical appointment of at least 0.2 FTE. Applicants must be employed by a South Australian Institution and be located and conduct their research primarily in South Australia for the duration of the funding period.

Applicants need to have a PhD or equivalent qualification. Researchers without these qualification/s may be able to demonstrate an equivalent track record through evidence of postgraduate training, peer-reviewed publications, grant acquisitions and other achievements.

Applicants must be within 10 years of PhD or equivalent qualification being attained, or must submit their thesis by 31 December in the year of application. Where applicable, evidence of PhD pass date must be provided.
Assessment

Selection will be based on a written application which addresses the selection criteria (outlined below) and demonstrates innovative aspects and scientific merit of the proposed research and relevance to cancer control.

A peer-reviewed assessment process will be used. Referees may be contacted. Interviews of short-listed applicants will occur for final selection, if necessary.

The Beat Cancer Project reserves the right not to make an appointment.

KEY DATES

Applications Open: 11 October 2021

Application Close: 10 November 2021 at 5pm

Outcomes Notified: December 2021

SELECTION CRITERIA

Applicants should address each of the selection criteria below using the online application form, and where applicable, provide examples which best demonstrate their strength in the area.

Note: It is recommended that selection criteria be prepared in a Word document before pasting into the application form.

**Research Output and Impact = 40% (1000 words max)**

Applicants should outline:
- overview of career pathway to date and future aspirations
- contribution to clinical and/or public health policy and practice
- research success relevant to opportunity.

Where relevant, applicants should describe their role in:
- clinical trials and cohort studies
- development of any intellectual property
- development of any commercialisation activities (this could include pharmaceuticals, diagnostic tests, medical devices, granted/or lodged patents etc.).

Applicants should describe:
- general clinical and/or public health impact that can lead to changes in current thinking and treatment strategies
- how the research findings from the Clinical Investigator Award will be translated into policy and/or practice.

**Professional Contribution = 10% (500 words max)**

Applicants should describe their current performance and/or future plans in relation to:
- supervisory experience
- peer review contributions to grant schemes
- peer review contributions to journal publications
- other professional contributions e.g. Scientific bodies, government expert advisory committees leading to translation, etc.

**Future Vision and Career Development = 10% (500 words max)**

Applicants should describe their plans in relation to:
- personal mentoring and career development, including the development and implementation of a formal mentoring plan within 12 months of the grant commencing
strategies for building research independence.

**Strength of Research Team, Collaborators and Environment = 10% (500 words max)**

Applicants should describe:
- the track record of their team leaders
- their collaborative relationships with other researchers (local, national and international)
- clear demonstration of engagement with a South Australian Local Health Network
- skill mix and roles of the team in which they will work
- access to research infrastructure and environment
- access to partnerships for research translation.

**Consumer and Community Engagement = 10% (500 words max)**

Applicants should describe:
- their track record relating to Consumer and Community engagement activities associated with health research, practice or policy
- their Consumer and Community engagement strategy associated with this application

**REQUIRED DOCUMENTATION**

Copies of the following documents will need to be uploaded within the online application form:

1. Research Proposal (20%)
2. CIA’s CV
3. Budget
4. Letter from applicants Faculty/Division/College Head
5. PhD Record.

Conformance with page limits and formatting requirements is strictly enforced (see below). Applications that fail to comply with these requirements may be excluded from consideration.

If the assessor cannot read the application due to inconsistency with any of the required formatting, they are not compelled to consider the section in their assessment, or complete the assessment of the application, on the grounds that the application does not comply with the formatting requirements.

1. **RESEARCH PROPOSAL = 20%**

To ensure equity for all applications please follow the guidelines below for your Research Proposal:
- **Layout** - portrait orientation on A4 paper
- **Font** - minimum 11-point Arial. Applicants must ensure that all font is readable when printed, including diagram/figure and image text.
- **Page limit** - 6 pages maximum including references.

Applicants are encouraged to include in their Research Proposal details outlining:
- proposed research objectives and plan
- a clear timeline in which the research plan will be achieved
- the innovative quality and competitiveness of the research
- expected outcomes of the research
- importance of the research to cancer control
- how the research plan will assist in the development of the applicant’s ability to perform original, independent self-directed research
- consumer engagement strategies
- references (1 page max).
2. **CURRICULUM VITAE**
Applications should include the CIA’s CV outlining:
*maximum 5 pages including publications*
- record of professional qualifications gained.
- record of research grant success
- record of speaking invitations at conferences
- record of prizes and awards
- record of publications in peer-reviewed journals

3. **BUDGET**
Applicants must provide a detailed budget which clearly outlines expenditure associated with the Clinical Investigator Award proposal.

Funding will only be for the direct cost (as defined by the [NHMRC Direct Research Costs Guidelines](#)) of research activities and research workforce development. Items not covered will include, but not be limited to, office space and services such as telephones, internet and basic IT facilities such as computers, faxes.

It is the responsibility of the grant holder to manage salaries and other expenditure within the limits of the grant.

The funds offered will not be supplemented. No additional claims may be made on the Beat Cancer Project to extend awarded packages.

Amounts granted are exclusive of GST.

4. **SUPPORTING LETTER FROM HEAD OF EMPLOYING INSTITUTION**
A letter from the applicant’s employing institution must be attached to the application. The letter must indicate that the Head of your employing institution:
- support the application
- consider the project to be compatible with the applicant’s interests, capabilities and career development needs
- agree that all conditions of employment will be met by the supporting institution.

5. **PhD RECORD**
Evidence from Academic Institution of date PhD or equivalent qualification was attained.

### GENERAL INFORMATION

**Other Sources of Funding**
Funding from further additional sources would be welcomed during the term of the package. Recipients must advise the Beat Cancer Project Manager of additional funding relevant to the scheme.

**Payment of Funds**
Payments will be made to the South Australian Administering Institution nominated in the grant application and will be paid in quarterly instalments upon receipt of a tax invoice.

**Ethics, Compliance and/or Safety Approvals**
If Ethics, Compliance and/or Safety Approvals are required, the applicants must ensure their Administering Institution has received all clearances required for the research activity before invoicing of funds can commence. Copies are to be provided to the Beat Cancer Project upon request.

**Consumer Engagement**
Cancer Council SA’s Beat Cancer Project values the input and participation of consumers in health and medical research. Applicants will be required to address criteria relating to consumer engagement activities within their research. These responses will be reviewed and considered by a peer-review panel as part of the selection process.

---

CLINICAL INVESTIGATOR V101092021
Mentors
The applicant must include details of a mentor who has expertise in the field of research relevant to the project. Details of the mentoring process and goals should be clearly set out in the relevant section of the selection criteria in the online application form.

Career Disruption
Where applicable, applicants may wish to claim a career disruption for consideration by the review panel. Details regarding this should be included in the relevant section in the online application form. The Beat Cancer Project has chosen to align with the NHMRC definition of career disruption/relevant to opportunity as outlined below:

*A career disruption involves a prolonged interruption to an applicant’s capacity to work, due to:*
- Pregnancy;
- Major illness/injury; or
- Carer responsibilities.

*Interruptions must involve either a continuous absence from work for periods of 28 calendar days or more and/or a long-term partial return to work that has been formalised with the applicant’s employer.*

*The period of career disruption may be used:*
- to determine an applicant’s eligibility for a scheme;
- to allow for the inclusion of additional track record information for assessment of an application; or
- for consideration by the panel during their deliberations.

Publicity
Successful applicants may be asked to assist with promotion of funded research and of Funding Parties of the Beat Cancer Project. The applicant’s capacity to act as an ambassador for the Cancer Council SA’s Beat Cancer Project will be considered. There will be requests to provide media publicity through interviews or other means and we ask that successful applicants participate when these opportunities arise. We also ask successful applicants to advise the Beat Cancer Project, Project Manager if promotion of the funded work is planned through their Administering Institution.

Successful applicants will be required include the following statement in all communication activities relating to the funded research:

‘*Undertaken with the financial support of Cancer Council SA’s Beat Cancer Project on behalf of its donors and the State Government through the Department of Health.*’

Successful applicants cannot make any public announcement regarding the Clinical Investigator Award or the Beat Cancer Project without the prior written approval of the administering body, SAHMRI (and acknowledges that SAHMRI may need to obtain the approval of the Funding Parties for any such announcement), unless such announcement is required by law or a regulatory body.

Successful applicants are required to adhere to all obligations required of SAHMRI as the administering body, by the Funding Parties with regard to acknowledgement and announcements, and shall use their best endeavours to assist SAHMRI to adhere to any contractual obligations in this regard.

Changes to Applications
Modifications to applications after final submission will not be allowed. The Beat Cancer Project must be notified of any changes that may impact on the application such as withdrawal of matched funding. If an applicant’s employment circumstances change the Beat Cancer Project, Project Manager must be notified immediately.
Commencement Date and Time commitment
Commencement date is negotiable but must be within 3 months of the formal date of offer.
The Clinical Investigator may apply for an unfunded contract extension, to align with any delays to the research project timeline.

Referee Details
Applicants will be required to provide the names and contact details of three referees in the application form. Referee reports may be requested during the assessment phase.

Reporting Requirements
The Beat Cancer Project, Project Manager will liaise with researchers to provide further details on reporting requirements. A final report will be required, plus other reports on research progress and financial status. Failure to submit requested reports may make researchers ineligible for further funding. The information provided in reports will be made available to SAHMRI and the Funding Parties.

An agreement with the Administering Institution will be finalised setting out terms and conditions of funding including reporting requirements.

Tobacco Policy
Funding will not be offered for individuals or institutions that receive support directly or indirectly from, or are involved with organisations that are part of or funded by, the tobacco industry. Applicants are asked to disclose any current or recent relationship with the tobacco industry. Unless counter-evidence is supplied, such relationships will be taken as conflict of interest and render applicants ineligible.

Unspent Funds
At the completion of the research term, unexpended money must be returned to SAHMRI as the funding administering body to manage on behalf of the Beat Cancer Project.

APPLICATION CHECKLIST

Late or incomplete applications will not be accepted.

The online application form will be available here from 11th October 2021
Applications must include:
- A complete online application form including answers to the Selection Criteria
- Research Proposal
- Budget
- CIA’s CV
- Letter from applicant’s employer confirming that they:
  - Support the application
  - Consider the project to be compatible with the applicant’s interests, capabilities and career development needs
  - Agree that all conditions of employment will be met by the supporting institution
- PhD Record.
